today.

“Musical Theatre Class”

In 2018 we are starting a new program for children who are Home Schooled. Through a fun packed hour long class your children will develop dispositions for learning such as curiosity, cooperation, confidence, creativity, commitment, persistence & imagination. Children will transfer and adapt what they have learned from one context to another. It's also a fun way to develop your child's language, cognitive, physical, social and emotional skills.
